To: "C.J. Celeiro" <cceleiro@boyslatin.org>

Dear Warriors,

This is the first contact I will be making in regards to Quarter 2 Grades.

If you are receiving this email, it is because you are currently failing your theatre course (below 60%).

**You may submit any missing assignments up to three weeks late.**

**Please note: A failing grade in quarter 2 does not necessarily mean you have completely failed the course. Your grades for quarter 1 and quarter 2 will be averaged to determine whether or not you will receive credit for the semester.**

**Additionally: The student handbook states "If a student is absent unexcused from a course for more than 14 percent of school days during the quarter, then the student will fail the course for the quarter." In the case of Q2, 14% is 6 days.**

Please take the opportunity to reflect on if your behavior in the classroom is directly related to your grade in the classroom. Engaging in disruptive behavior such as side conversation, off-task behavior, sleeping, choosing not to participate or engage in classwork, using your phone during class (which is against school policy), or not attending/skipping may be contributing to your inability to complete work on time and result in a failing grade. If you feel that this is the case, now is the time to start taking accountability for your decisions in the classroom and make a change so you can improve moving forward.

Thank you,

—  
**Mr. C.J. Celeiro**
